

**Class A**

0	Network (7 bits)	Local address (24 bits)
---	------------------	-------------------------

**Class B**

10	Network (14 bits)	Local address (16 bits)
----	-------------------	-------------------------

**Class C**

110	Network (21 bits)	Local address (8 bits)
-----	-------------------	------------------------

**Class D**

1110	Multicast address (28 bits)	
------	-----------------------------	--
